INNOVATIVE CLUSTER
FOR RADIOLOGICAL AND NUCLEAR EMERGENCIES

EU SUPPORT TO RADIOLOGICAL AND NUCLEAR EMERGENCIES

Horizon 2020, Topic SU-GM01-2018-2019-2020: Pan-European clusters of practitioners and other actors in the field of Security - Innovation clusters from around Europe managing demonstration sites, testing workbenches, and training facilities.

WHAT IS INCLUDING ABOUT?

INCLUDING

INCLUDING is seek to provide a full-fledged and comprehensive training in the RN security sector at European level. Starting from the existing training resources of the Partners in the Consortium, in most cases developed in the framework of EC projects, INCLUDING aims to enhance practical know-how and to boost a European sustainable training and development framework for practitioners in the RN Security sector. Far from being a simple aggregation of entities separated geographically and with complementary expertise, INCLUDING is intended to be a cluster of facilities and resources pursuing a Federated Model in which individual components will cooperate together to provide a common framework for optimizing the exploitation of all the potentialities available in the Cluster.

OBJECTIVES

1 To provide a Pan-European Federated model of RN Security sector cluster to optimize sharing of resources and expertize.

2 To develop a centralized management tool for remote booking and utilization of resources in the Federation.

3 To develop a common learning framework for RN training.

4 To capitalize results and training facilities developed in previous EU projects.

5 To execute several real threats driven Joint Actions at Federation facilities to validate the federated model.

6 To collaborate with RN community, on-going EU and national projects and other cluster for long-term sustainability of the Federation.

including-cluster.eu

INCLUDING PLATFORM

- An innovative tool for the **management of training activities.**

- Based on a **federated architecture.**

- A step ahead in the process of **planning multiagency and multinational training sessions** with a common language, understanding and cooperation.

- Together with INCLUDING methodology will allow to identify human and technical resources **for cross national mobilization and sharing** and to enhance interoperability for optimizing efficiency and reduce operative costs.

RN Training
A common learning framework for RN training

Crisis Management
Efficient and cost effective sharing of facilities and resources

Cluster of RN Stakeholders
Open for the whole RN community
